

Concrete Show brings together more than 20 different segments of the concrete production chain and as a shop window, it reflects the growth of the economy, pushing the sector forward and is strongly representative of Brazil. In its 10th edition, it is recognized by the worldwide market as the most important meeting point for concrete production chain in Latin America. In recent years, it has been the ideal platform for launching new products, generating leads and networking.

Date - August 24th - 26th 2016

Location - Sao Paulo Expo - Sao Paulo, Brazil
