

The ACI Convention is devoted to bringing together the leaders in the concrete industry. These individuals work to improve the **design, construction, maintenance, and repair of concrete projects**. Conventions provide opportunities to network, learn, and a chance to provide input on the concrete industry's codes, specifications, and guides.

Committees meet to develop the standards, reports, and other documents necessary to keep up with the ever-changing world of concrete technology. Additionally, the ACI Convention offers numerous networking events where you can expect to meet with many of the industry's top engineers, architects, contractors, educators, manufacturers, and material representatives from around the world.

Date - October 23rd - 27th 2016

Location - Philadelphia Marriott Downtown | Philadelphia, PA, USA
