

Net Zero Construction Conference

Building a Sustainable Future Together. Virtually!

Date: January 2022

The Net Zero Construction Conference brings together the top leaders in sustainable construction to discuss the trends and technologies that are paving the way for a net-zero future.

Let's Chart the Future of Our Industry Together

The construction industry is about to undergo the most significant change and disruption its seen in the last century. With climate change rapidly altering the way we live, governments and interest groups around the world are pushing for new changes across virtually every sector of our lives.

In Construction, We Literally Build the Future

Join us to learn from the top leaders in sustainable construction about the trends and technology that are paving the way for our net zero future.

Companies Leading the Sustainable Charge

Hear from the top companies who are changing our industry!

We are proud to host many innovative companies in our virtual expo hall. Learn what all of these industry leaders have to offer with just a click of your mouse.

Network with the Best

There is no better place to connect and network with other leading construction professionals and companies interested in net zero construction.

Network face to face, 1 on 1 and in group sessions.
